

Digital Experience Agency

Reach your patients and community with a digital strategy designed for the consumer.

About Us

Geonetric partners with hospitals, health systems, and medical groups to create digital experience strategies optimized for the unique needs of the healthcare industry. We offer an array of digital services and create compelling user experiences on our award-winning content management system (CMS) VitalSite®, as well as other digital experience platforms (DXPs).

- Content Strategy
- Personalization & Optimization

The Geonetric Difference

We're more than a digital marketing agency.

We're a healthcare-specific partner dedicated to your success through our suite of services and VitalSite® CMS.

We become an extension of your team.

Our client satisfaction rate is 98.7%, and many organizations say they feel like they're our only client.

We provide peace of mind.

We offer complex website hosting and Geonetric Privacy Filter to ensure your information is secure and compliant.

We have decades of experience.

Geonetric was founded in 1999 and has been bringing robust digital experiences to life ever since.

We keep you on the cutting edge.

We provide strategic guidance, best practices and the big ideas to push your digital initiatives forward.

We knew when we selected Geonetric that they would be a great partner, we just didn't know our relationship would span a decade. We've developed a strong working relationship with their team, appreciate how they keep us informed of the latest news and insights in the digital healthcare space and have grown alongside us."

Jenny Sundberg,
Director of Marketing and
Strategic Planning at Bryan Health
